

RELATED EXPERIENCE

CHARTER TOWNSHIP OF WEST BLOOMFIELD NON-MOTORIZED PATHWAYS AT VARIOUS LOCATIONS

J&A was commissioned by the Township to complete the construction administration of various segments remaining from the 2009 Safety Path program which were not constructed due to seasonal

Location:	West Bloomfield Township Oakland County, Michigan
Construction Date:	2010
Construction Cost:	Not Applicable
Client:	Development Services West Bloomfield Township

limitations. Our project team facilitated construction and redesign on several difficult segments. As part of the redesign process, J&A worked closely with representatives from the Road Commission of Oakland County and property owners to address topographic issues while maintaining compliance with ADA standards. We developed the project plans in accordance with the requirements of MDOT and AASHTO for pathways and to ADA design standards.

Willow Road from Alden Road to Canal Court necessitated a culvert crossing at Green Lake. The pathway bridge over the culvert was designed to be removable to allow access to the culvert for maintenance.

Pathways were designed for the following locations:

- Willow Road from Hiller Road to North Shore
- 14 Mile Road from Finnegan Drive to Gate House Drive
- Lochaven Road from Willow Road to Hunt Road
- Willow Road from Alden Road to Canal Court
